

# “Unplugged” Suggestions for Science Teachers

# Grades K-5

For standard aligned unplugged activities by grade level, please view the [Georgia Public Broadcasting](#) remote learning activities.

01

## Notice and Wonder Walks

**Parental supervision required.** Students should look for examples of non-living and living organism in their backyard. Students should create photo album of hand drawn sketches.

02

## Rock Collection

**Parental supervision required.** Students should collect different types of rocks they find in their backyard.

03

## Slow Changes Scavenger Hunt

**Parental supervision required.**

04

## Ecosystem Scavenger Hunt

**Parental supervision required.**

05

## NSTA's Daily-Do

# Grades 6-12

For standard aligned unplugged activities by grade level, please view the [Georgia Public Broadcasting remote learning activities](#).

## 01 Science and Engineering Fair Project

**ONLY 6<sup>th</sup>-9<sup>th</sup> graders, 10<sup>th</sup>-12<sup>th</sup> graders optional.** Great opportunity for students to conduct their experimentation.

## 02 [NSTA's Daily-Do](#)

## 03 Phenomenon Scavenger Hunt

Students will look in their yard, neighborhood and community for a teacher generated list of phenomena they are learning.

## 04 Share-Out

Students will share with their parent and/or guardian what they have been learning in science class.

## 05 Community Clean Up

**Parental Permission Required.** Organize a community clean up for your street.
