**Richmond County School System calls for input on academic calendars**

(AUGUSTA, GEORGIA) – The Richmond County School System is asking the community to provide feedback on the 2022-23 and 2023-24 academic calendars.

“As we begin to plan for the 2022-23 and 2023-24 academic years, we are providing two options for each academic year. Parents and community members will note the differences in the calendars are the length of breaks and the inclusion of PowerUp Asynchronous Learning Days,” says Dr. Malinda Cobb, Associate Superintendent of Academic Services. “It is important that we establish the calendars now, so all of our schools and departments will be equipped to support the academic success of our students.”

Input on the calendars can be provided on our website at [rcboe.info/Vote4Calendar](http://rcboe.info/Vote4Calendar) through December 8.
