RCSS wins GAEL Vision Awards

(AUGUSTA, GEORGIA) – The Georgia Association of Educational Leaders (GAEL) has recognized the Richmond County School System as a 2021-22 GAEL Vision Award.

The Vision Award is presented to school districts in five categories based on their commitment to encouraging and supporting teachers, principals, and district office staff in professional learning.

“While some school systems may struggle to implement or allow staff to participate in professional learning, we place an emphasis on high performing workforce by enhancing professional learning for all employees,” says Dr. Kenneth Bradshaw, Superintendent of Schools.

Richmond County School System was one of 26 districts to be recognized. The Vision Award was presented during the GAEL Winter Conference, January 23-25, in Athens.
